

International Law & Alliances

Built for Business Across Borders

Hinshaw's international work is rooted in practical relationships and industry focused knowledge. We have built targeted alliances with trusted firms in key markets across Europe and Latin America, paired with our own strong US platform. This model gives clients efficient access to experienced lawyers who know the local laws, the regulators, and the industries—without unnecessary cost or layers of bureaucracy.

From insurance coverage disputes coordinated through London, to corporate transactions handled with partners in the United Kingdom, the European Union, and other regions, to cross-border investments, Hinshaw delivers high-quality integrated counsel across jurisdictions. For instance, Hinshaw attorneys are licensed outside of the United States in Canada and in Poland.

Corporate & Transactions: Cross-Border Business Made Practical

Global growth often hinges on getting the deal structure right. From entity formation to complex cross-border M&A, clients rely on Hinshaw for clear, business-minded counsel that bridges legal systems and business cultures.

Integrated US, UK, and EU Advisory

Hinshaw collaborates with two leading non-US law firms to give clients direct access to local expertise:

- [Tribeca Abogados S.L.P. \(Spain\)](#) – Known for advising international investors and companies on corporate, commercial, and transactional matters throughout Spain and the European Union.

Together with Hinshaw, these firms provide seamless guidance for US businesses entering Europe and European entities expanding into the US.
