

# Scott Seaman to Present on Emerging Trends in Environmental Insurance Coverage

## Webinar

Feb 26, 2026

Hinshaw partner Scott Seaman will co-present the BARBRI CLE webinar “Environmental Insurance Coverages: CGL, Property, and D&O Policies for PFASs, ESG, NRD, CERCLA, RCRA, OPA, and Others” on February 26, 2026. The session will explore current and emerging trends in environmental claims, including PFAS and other “forever chemicals,” and the potential coverage available under various commercial policies. Key topics include critical policy exclusions, defenses, and the scope of covered damages.

The webinar will also address how coverage applies across general liability, environmental, property, and D&O policies, as well as strategies for apportioning damages among insurers and policyholders. Counsel, claims professionals, and risk managers will gain practical insights into evolving theories of liability, covered costs, and defense obligations.

For more information and to register, [visit BARBRI’s website](#).
